Participant Portal

Flow & Functional Explanation Report

ViceVerse Ideathon Management Platform

1. Purpose of the Participant Portal

The Participant Portal is used by individual participants to register themselves on the ViceVerse Ideathon platform and participate in the team formation process.

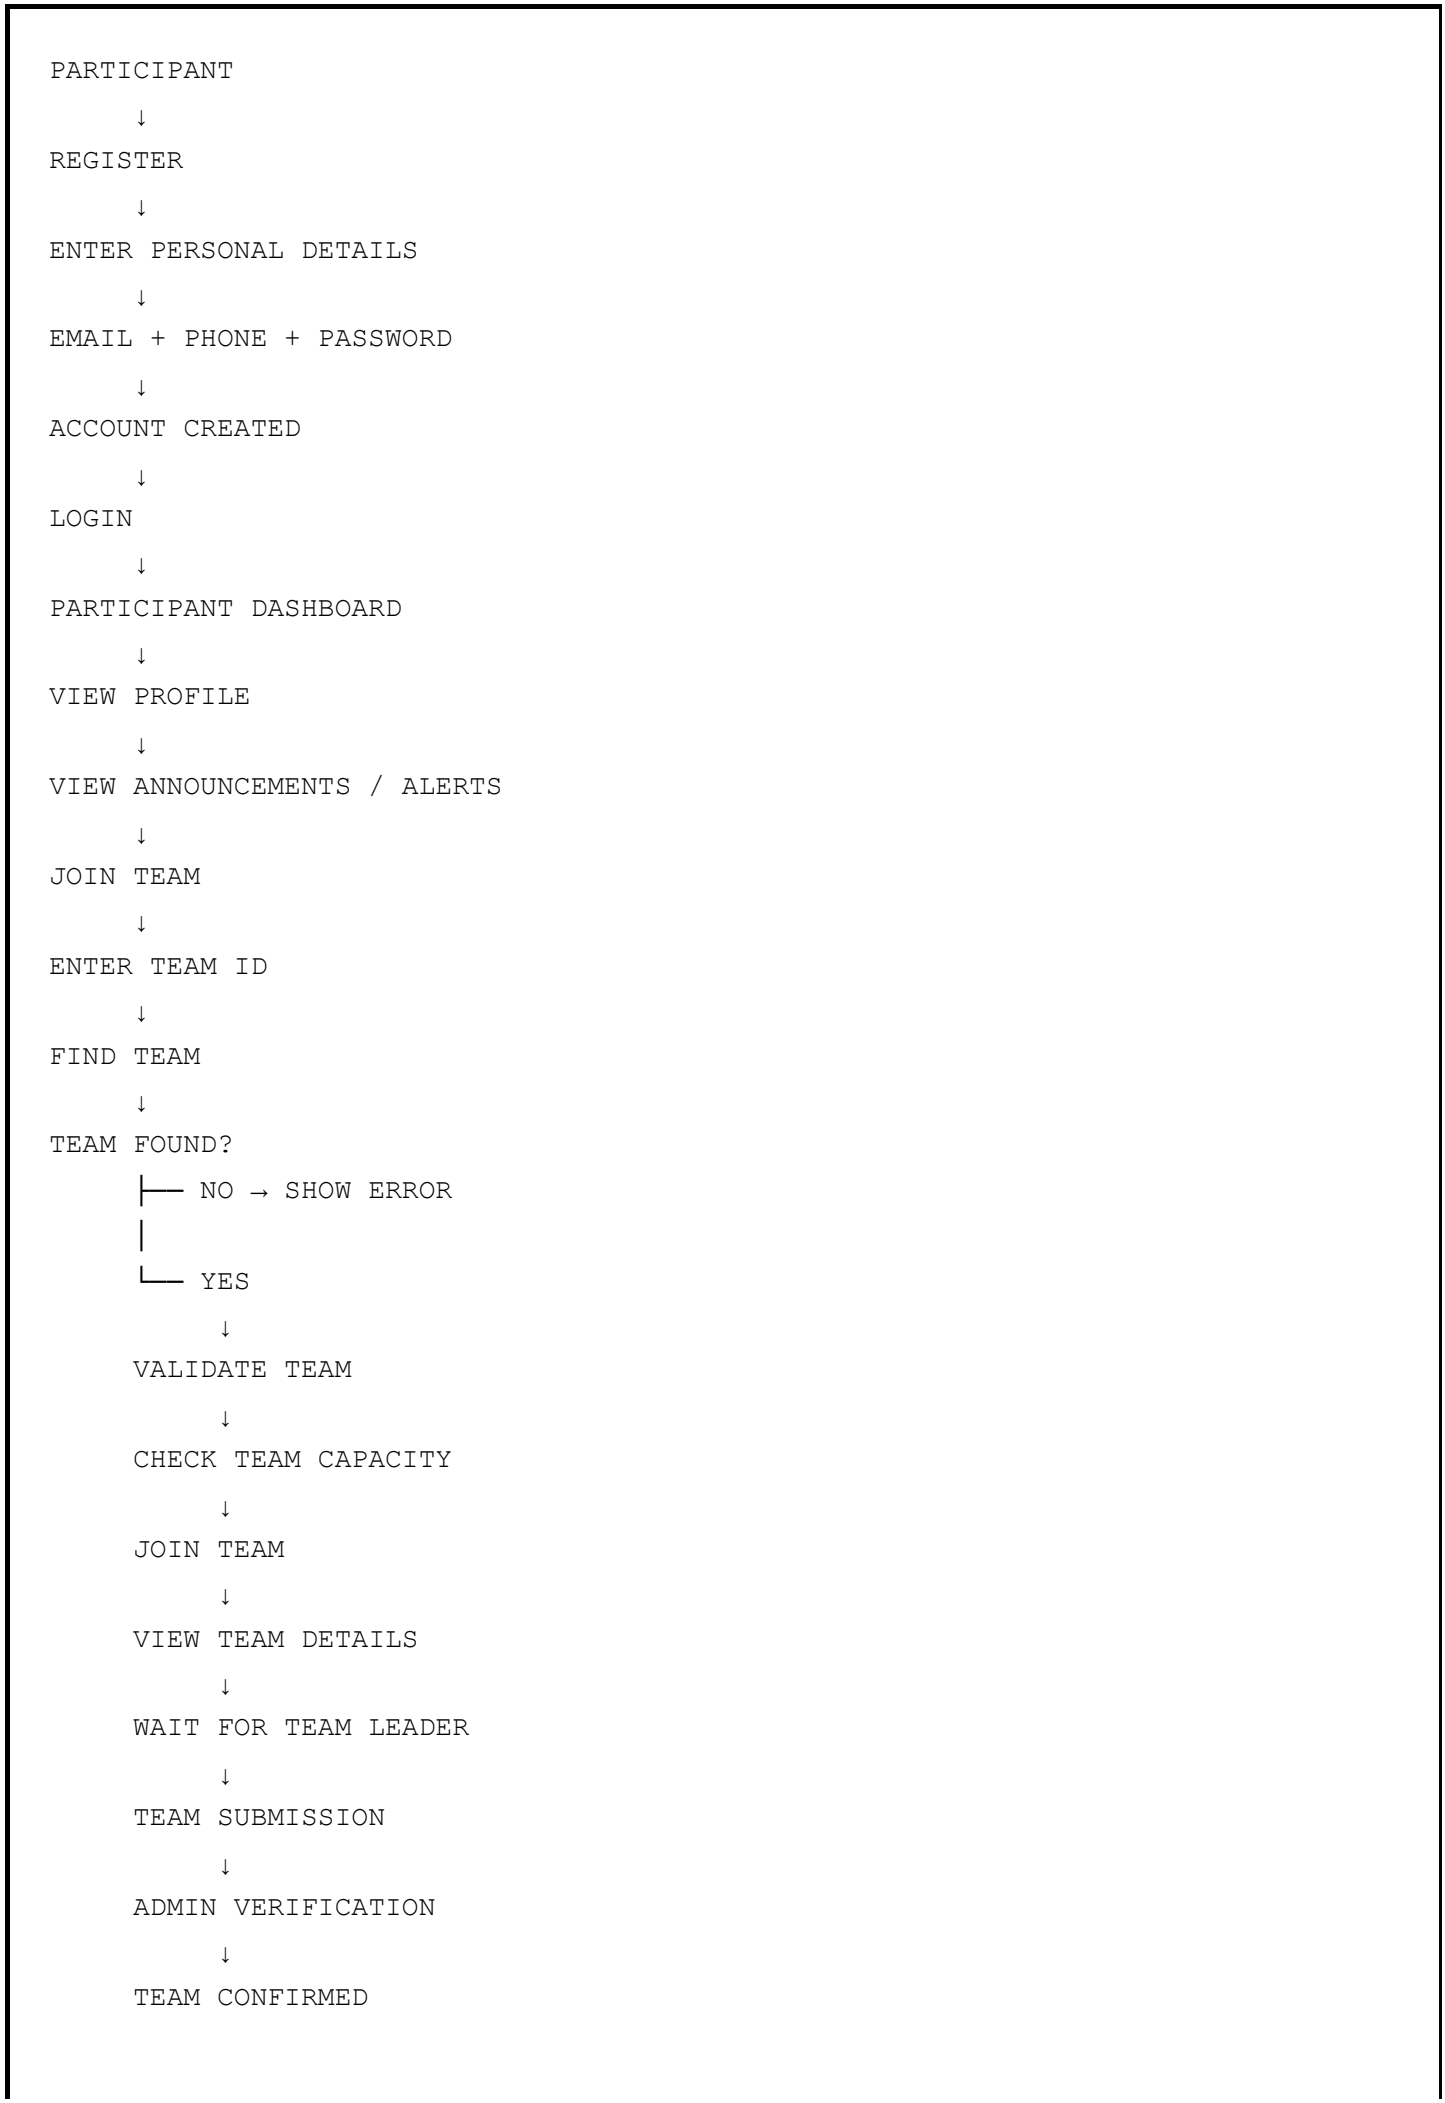

Each participant creates an individual account using their email, phone number and password. After registration, the participant can log in and join an existing team using the unique Team ID provided by the Team Leader.

The Participant Portal is primarily responsible for:

- Participant registration
- Participant authentication
- Participant profile
- Joining an existing team
- Viewing team information
- Viewing team status
- Viewing selected domain
- Receiving Admin announcements and alerts
- Viewing relevant event information
- Logout

Team-level operations such as payment, final team submission, project submission and event-day operations are handled by their respective authorized portals.

2. Overall Participant Flow

```

4. Participant Registration Data

Field	**Purpose**
Participant Name	Identifies the participant.

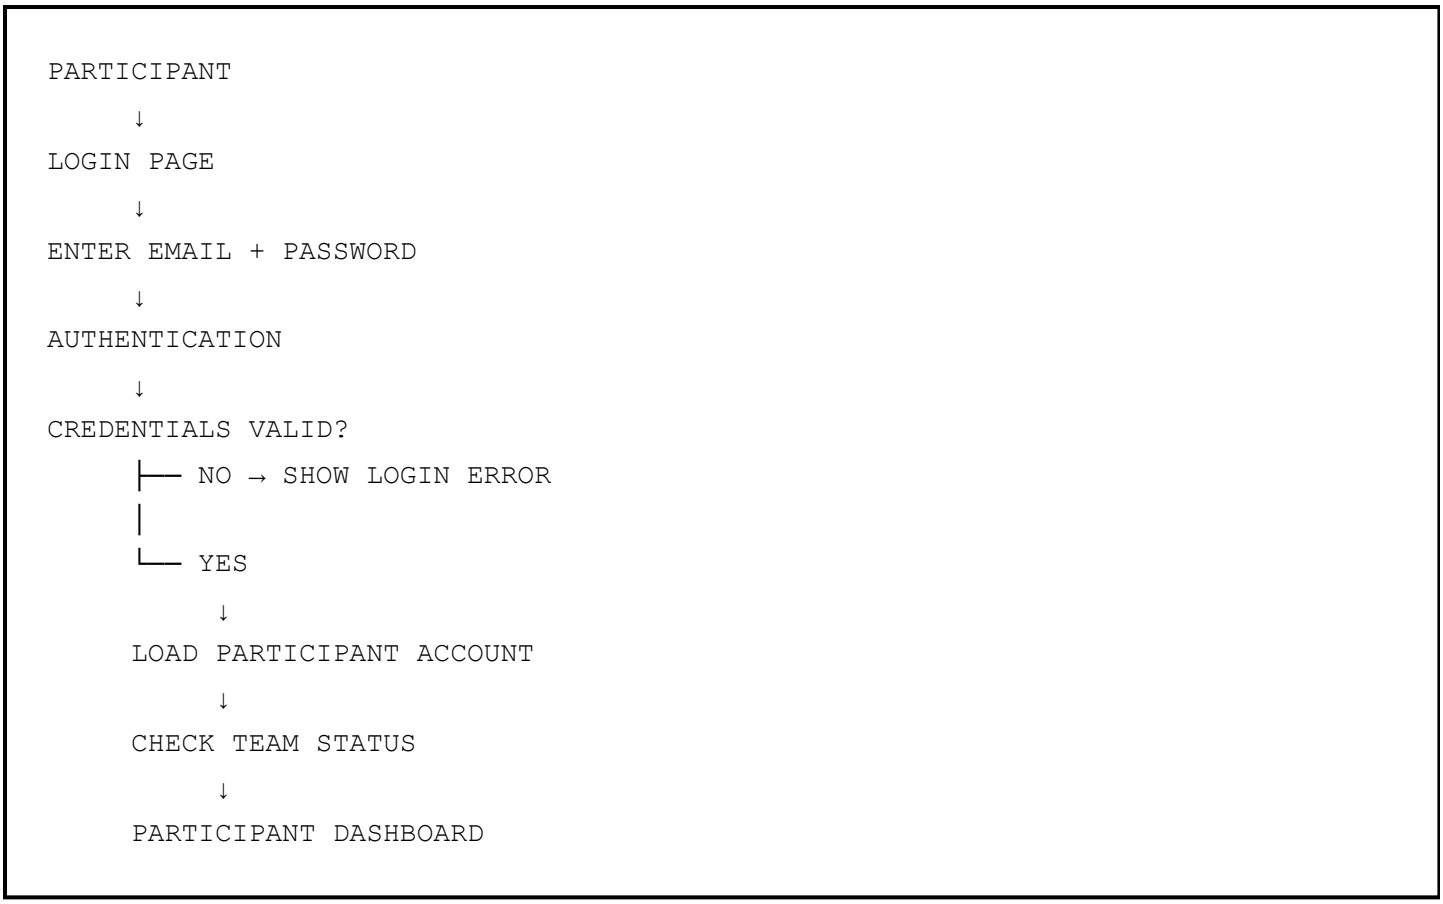

Email	Used for account identification, authentication and communication.
Phone Number	Used as participant contact information.
Password	Used to authenticate the participant account.

5. Participant Account

Every participant has an individual account. Team membership does not replace the individual account.

Information	**Purpose**
Participant ID	Unique identification of the participant.
Name	Participant identification.
Email	Login and communication.
Phone	Contact information.
Password	Authentication.
Team ID	Identifies the team the participant belongs to.
Team Role	Identifies whether the participant is a Team Leader or normal team member.

6. Participant Login

Only an authenticated participant can access participant-level functions.

7. Participant Dashboard

The dashboard provides the participant with their account, team information and organizer communication.

```
PARTICIPANT DASHBOARD

├── Profile
│   ├── Name
│   ├── Email
│   └── Phone
│
├── Team
│   ├── Team Name
│   ├── Team ID
│   ├── Team Leader
│   ├── Team Members
│   └── Domain
│
├── Join Team
│   └── Enter Team ID
│
├── Team Status
│
├── Announcements / Alerts
│
└── Logout
```

8. Participant Profile

The profile section displays the participant's own registered information.

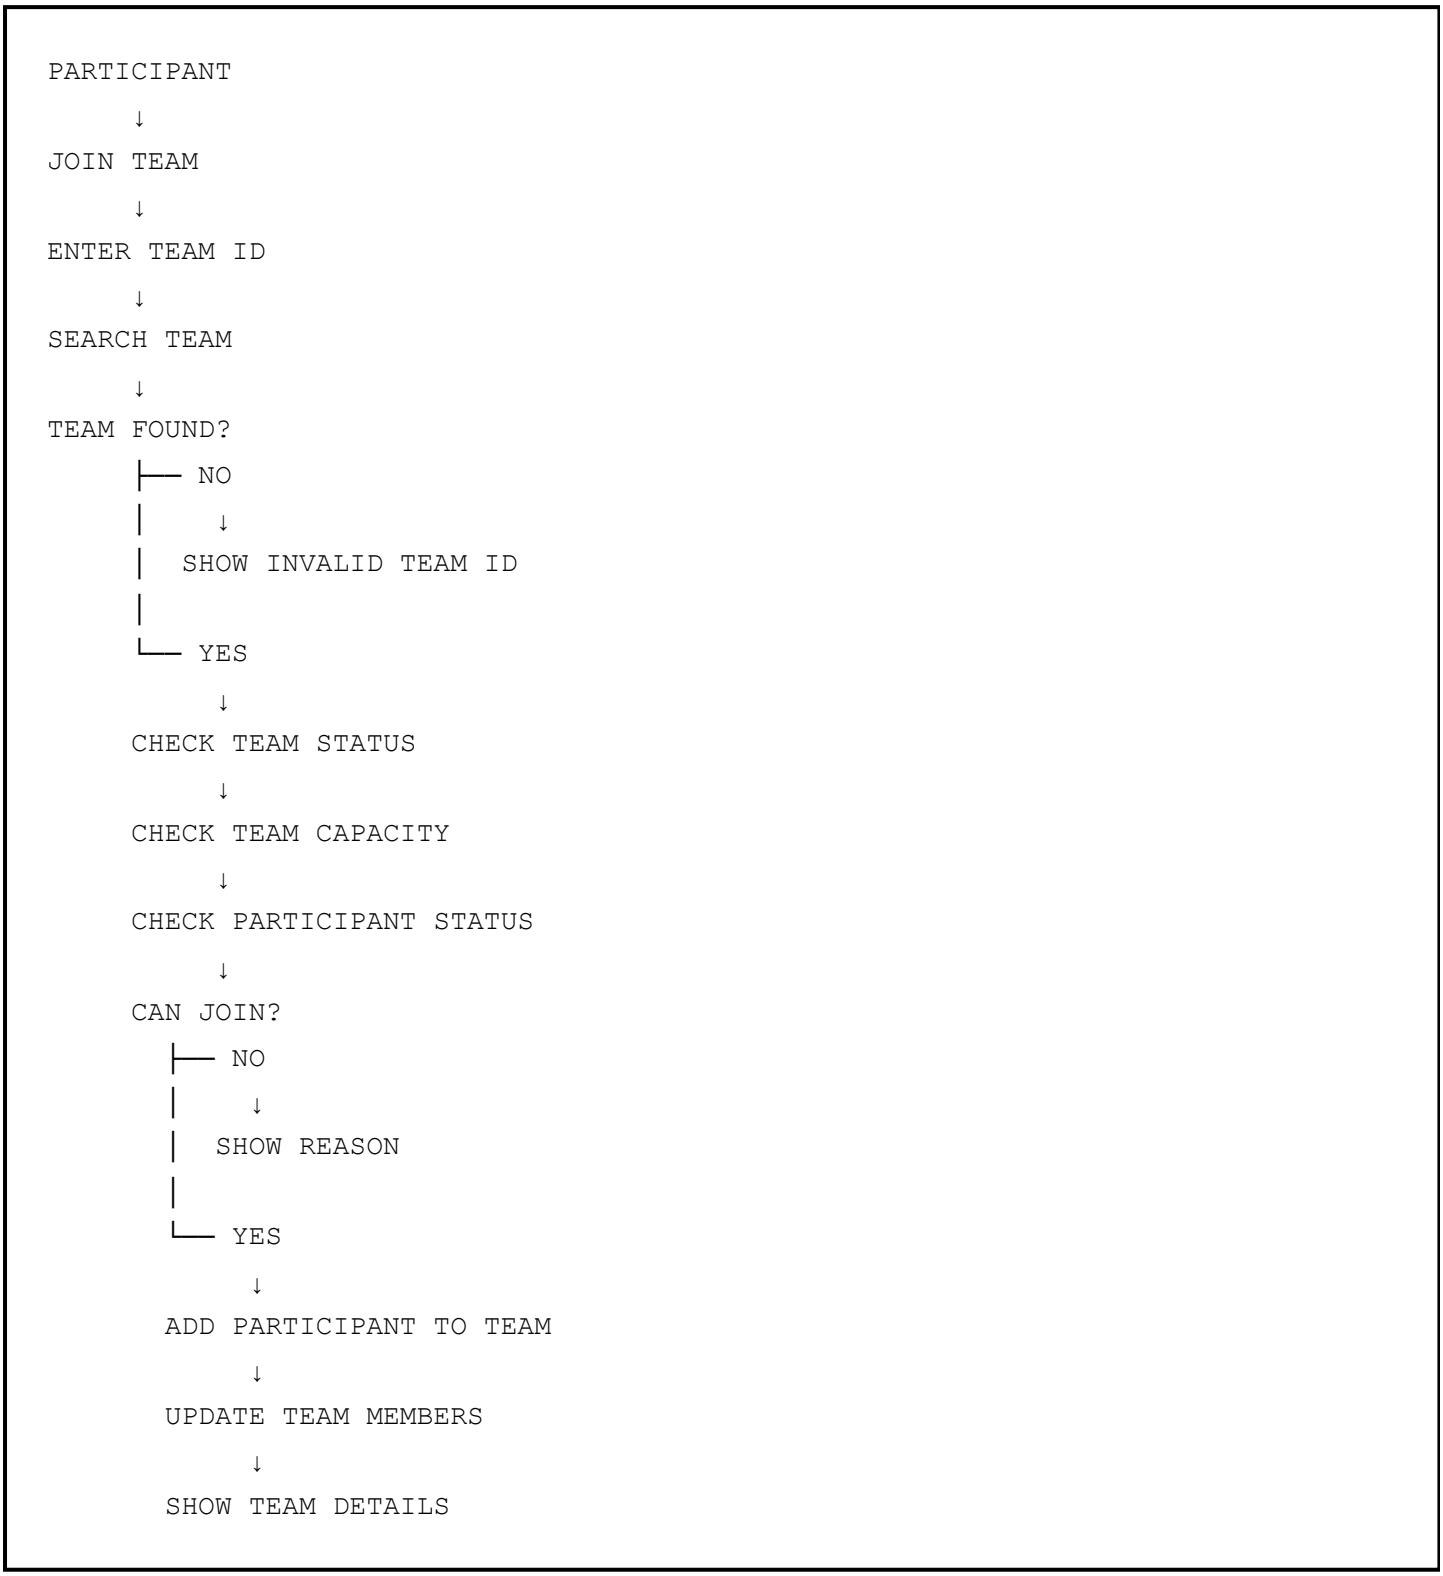

Profile Information

- Participant Name
- Email
- Phone Number
- Participant ID
- Team ID, if already part of a team
- Team Role, if applicable

Participants should only be able to access information permitted for their own account.

9. Joining a Team

A participant who has not yet joined a team can join an existing team using the unique Team ID.

10. Team ID

Every team receives a unique Team ID when the Team Leader creates the team.

```
TEAM LEADER
     ↓
CREATE TEAM
     ↓
SYSTEM GENERATES UNIQUE TEAM ID
     ↓
TEAM ID DISPLAYED TO TEAM LEADER
     ↓
TEAM LEADER SHARES TEAM ID
     ↓
OTHER PARTICIPANTS
     ↓
ENTER TEAM ID
     ↓
JOIN TEAM
```

> The Team ID identifies a team. It does not act as an authentication credential or give administrative permission.

11. Team Capacity

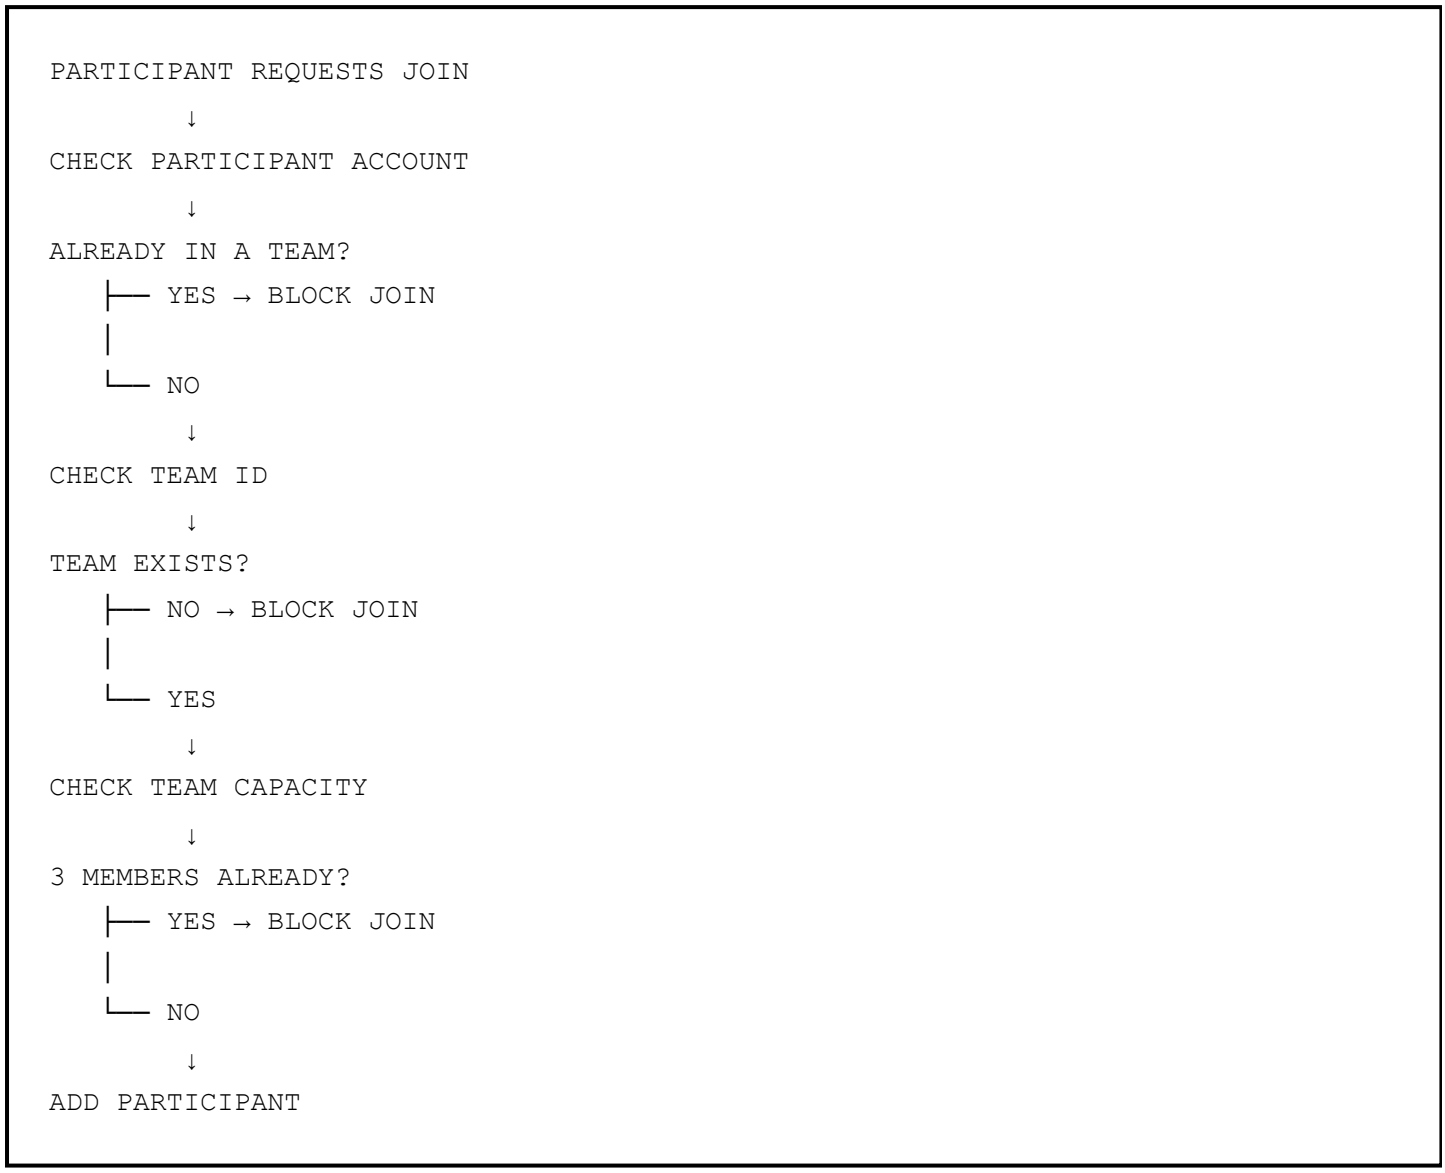

Each team must contain exactly three participants.

```
TEAM CREATED
     ↓
TEAM LEADER
     ↓
MEMBER 2 JOINS
     ↓
MEMBER 3 JOINS
     ↓
3 MEMBERS COMPLETE
     ↓
TEAM CAPACITY REACHED
     ↓
NO ADDITIONAL MEMBER CAN JOIN
```

The team capacity check must be enforced by the backend.

12. Team Membership Validation

Before allowing a participant to join, the system validates the participant and the target team.

13. Team Requirement Status

The participant can view the basic status of their team, but team-level validation and final submission are handled through the Team Leader Portal.

```
PARTICIPANT
     ↓
VIEW TEAM
     ↓
CHECK TEAM MEMBERS
     ↓
CHECK TEAM STATUS
     ↓
WAIT FOR TEAM LEADER
     ↓
TEAM REQUIREMENTS COMPLETED
     ↓
TEAM SUBMITTED
     ↓
ADMIN VERIFICATION
```

14. Team Information Visible to Participants

Information	**Visibility**
Team Name	Visible
Team ID	Visible
Team Leader	Visible
Team Members	Visible
Selected Domain	Visible after selection
Team Status	Visible
Payment Status	May be displayed as relevant team status
Payment Proof	Not a participant-controlled function

15. Team Status Visibility

```
TEAM CREATED
     ↓
FORMING TEAM
     ↓
3 MEMBERS COMPLETE
     ↓
TEAM REQUIREMENTS CHECK
     ↓
TEAM SUBMITTED
     ↓
PENDING ADMIN VERIFICATION
     ↓
APPROVED
     ↓
TEAM CONFIRMED
     ↓
READY FOR EVENT
```

Participants can see the relevant team status but cannot manually change the status.

16. Domain Selection

Domain selection is a team-level operation. The Team Leader selects the domain before the team is submitted.

```
TEAM
  ↓
TEAM LEADER
  ↓
SELECT DOMAIN
  ↓
DOMAIN SAVED
  ↓
PARTICIPANTS CAN VIEW DOMAIN
```

Participants do not independently select or modify the team's domain.

17. Announcements & Alerts

Admin announcements are made available to participants through the Participant Portal.

```
ADMIN
     ↓
CREATE ANNOUNCEMENT
     ↓
ENTER TITLE + MESSAGE
     ↓
PUBLISH
     ↓
ANNOUNCEMENT STORED
     ↓
AVAILABLE TO PARTICIPANT PORTAL
     ↓
PARTICIPANT DASHBOARD
     ↓
ANNOUNCEMENT / ALERT
     ↓
PARTICIPANT READS MESSAGE
```

Announcements can contain event instructions, schedule changes, deadlines, venue information, operational instructions and other organizer communication.

Announcement Action	**Participant**
View announcements	Allowed
Receive alerts	Allowed
Create announcement	Not allowed
Edit announcement	Not allowed
Delete announcement	Not allowed

18. Participant Waiting State

Once a normal participant joins a team, most team-level actions are handled by the Team Leader.

```
PARTICIPANT JOINS TEAM
        ↓
VIEW TEAM DETAILS
        ↓
WAIT FOR TEAM LEADER
        ↓
TEAM LEADER COMPLETES TEAM REQUIREMENTS
        ↓
DOMAIN SELECTED
        ↓
TEAM SUBMITTED
        ↓
ADMIN VERIFICATION
        ↓
TEAM CONFIRMED
        ↓
READY FOR EVENT
```

> The Participant Portal should not duplicate Team Leader functionality. Team-level actions remain under the Team Leader role.

19. Payment Handling

Payment is a team-level operation handled by the Team Leader. Participants do not independently submit or verify payment.

```
TEAM
     ↓
TEAM LEADER
     ↓
PAYMENT QR
     ↓
PAYMENT
     ↓
UPLOAD PAYMENT PROOF
     ↓
TEAM STATUS: PENDING
     ↓
ADMIN VERIFIES PAYMENT
     ↓
APPROVED
     ↓
TEAM CONFIRMED
```

Participants may view the relevant team status where configured, but they do not control payment verification.

20. Project & Final Submission

Project details are not required during the initial participant registration or team formation process.

During the final hours of the event, the Team Leader receives access to the project and final submission section.

```
EVENT FINAL HOURS
        ↓
TEAM LEADER PORTAL
        ↓
PROJECT DETAILS OPEN
        ↓
ENTER PROJECT INFORMATION
        ↓
UPLOAD FINAL PPT
        ↓
OPTIONAL MATERIALS
        │
        ├── GitHub
        ├── Pitch Deck
        ├── Prototype / Demo
        └── Additional Material
        ↓
FINAL SUBMISSION
        ↓
SUBMISSION LOCKED
```

A normal participant does not independently submit the project.

21. Event-Day Operations

Event-day activities are handled by authorized Club Members. Participants do not directly modify event operation records.

```
TEAM
     ↓
CLUB MEMBER
     ↓
SCAN TEAM QR
     ↓
IDENTIFY TEAM
     ↓
DISPLAY 3 MEMBERS
     ↓
SELECT MEMBER
     ↓

     │
     ├── Registration
     ├── Goodies
     ├── Lunch
     └── Snacks
     ↓
STATUS UPDATED
```

22. Evaluation & Results

Evaluation is performed by authorized Judges and results are controlled by Admin.

```
JUDGE
  ↓
EVALUATES TEAM
  ↓
SUBMITS EVALUATION
  ↓
ADMIN REVIEWS / MONITORS
  ↓
ADMIN PUBLISHES RESULTS
  ↓
TEAM LEADER
  ↓
VIEW OWN TEAM RESULT
```

The normal Participant Portal does not provide judging or result publication functionality.

23. Logout

```
PARTICIPANT DASHBOARD
        ↓
LOGOUT
        ↓
SESSION ENDED
        ↓
LOGIN PAGE
```

24. Participant Portal Navigation

```

Upload payment proof	Not allowed
Verify payment	Not allowed
Generate Team QR	Not allowed
Submit project	Not allowed
Judge teams	Not allowed
Modify event operations	Not allowed
Publish results	Not allowed
Access Admin functions	Not allowed

26. Security & Access Control

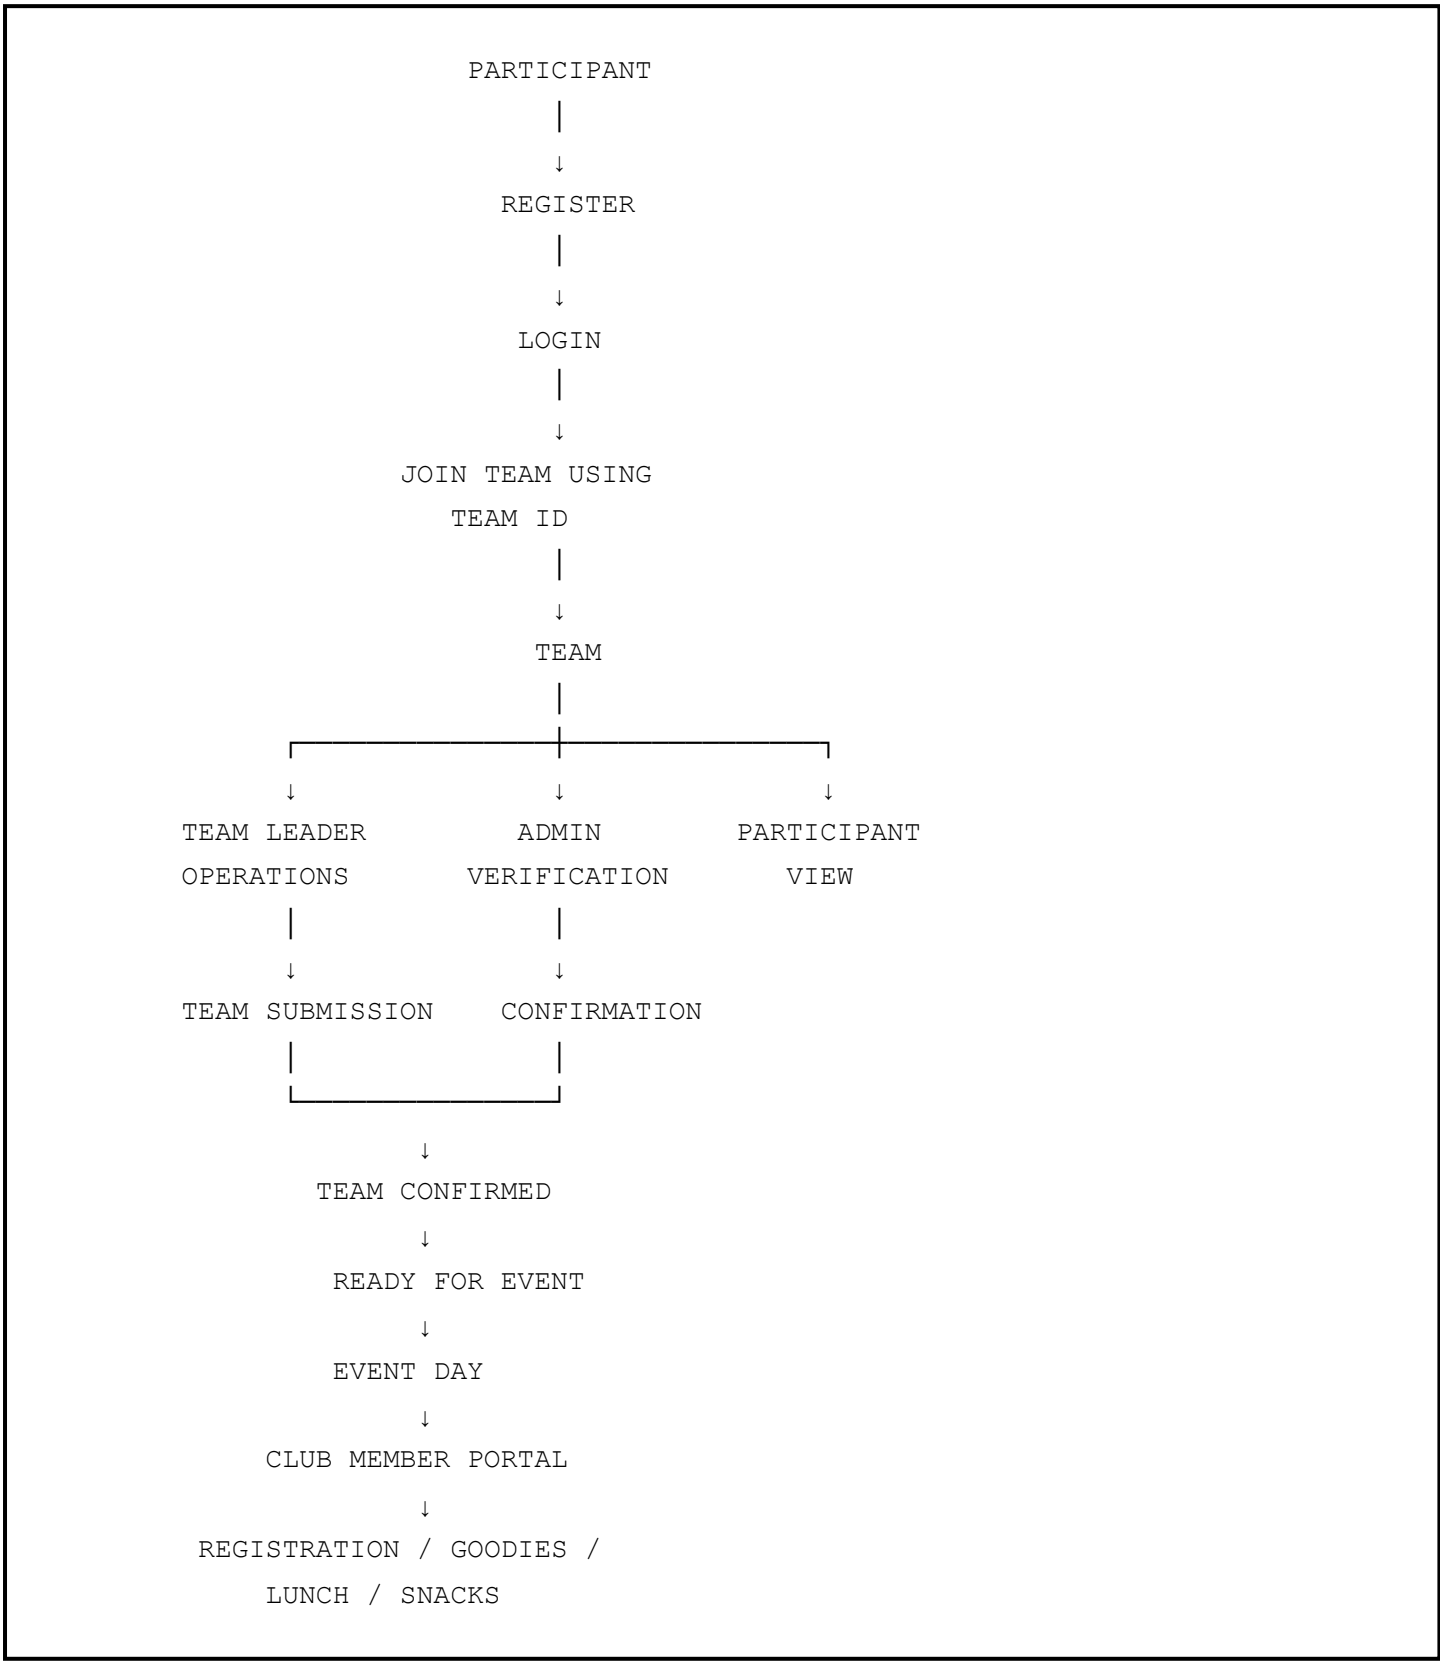

- Participants must authenticate before accessing their account.
- Participants can access their own profile information.
- Participants can only join teams according to configured team rules.
- Team capacity must be checked by the backend.
- A participant already belonging to a team should not be able to join another team unless an authorized workflow allows it.
- A Team ID identifies a team but does not act as an authorization credential.
- Participants cannot access Admin functions.
- Participants cannot access Judge functions.
- Participants cannot modify team-level administrative records.
- Important account and team actions should be audit logged.

27. Participant Data Used by the Portal

Data	**Purpose**
Participant ID	Unique participant identification.
Name	Participant identification.
Email	Authentication and communication.
Phone	Participant contact information.
Team ID	Connect participant with a team.
Team Role	Identify participant's role within the team.
Team Name	Display team information.
Team Members	Display team membership.
Selected Domain	Display the team's selected domain.
Team Status	Display current team state.

Announcements	Display organizer communication.

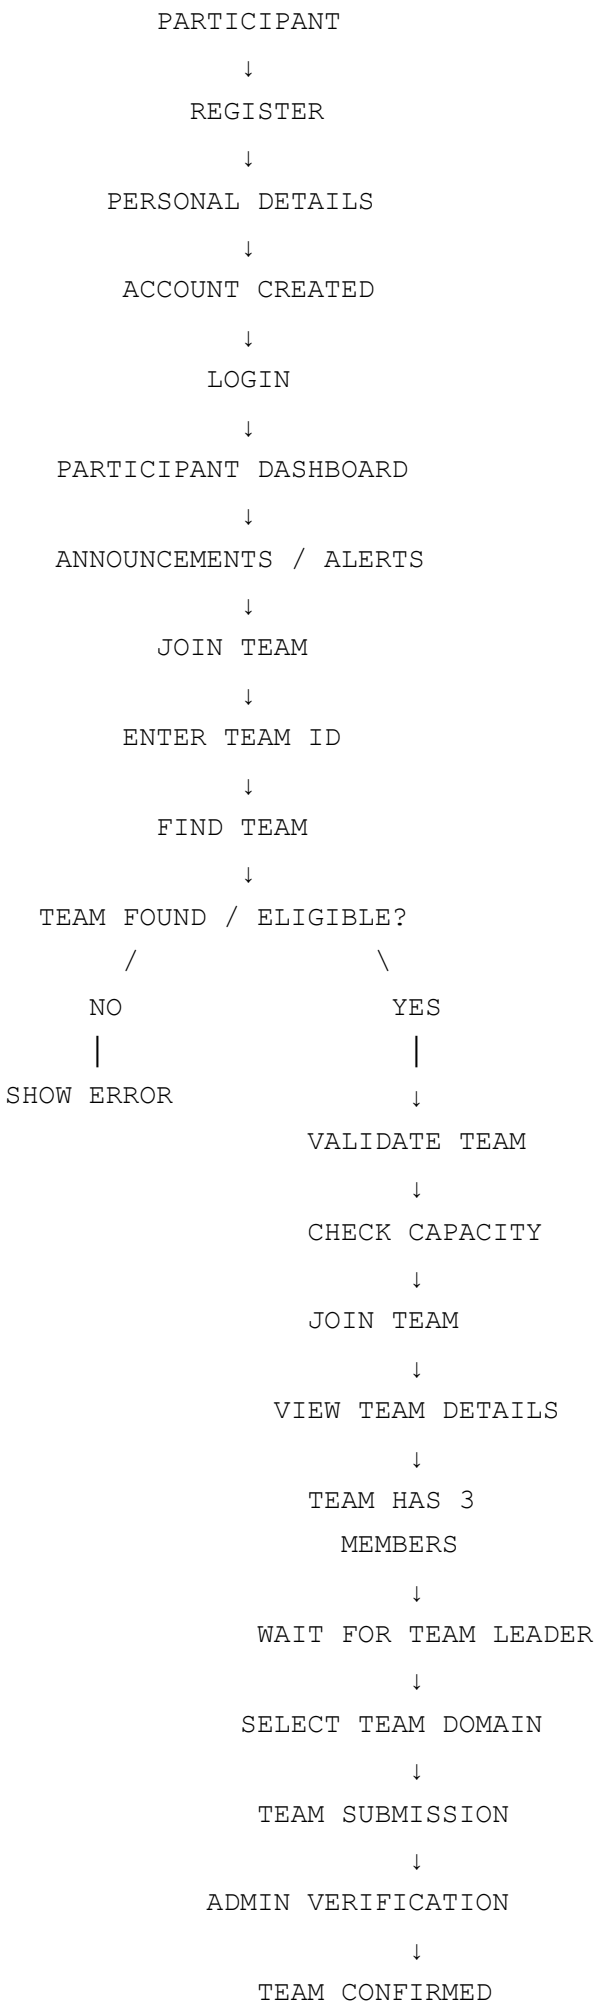

28. Relationship With Other Portals
